

Benjamin Franklin Got The Screw

Benjamin Franklin was a great American.

He made 'lectricity while having a little fun,
So we made him into bronze and not the star,

He became a bank like the piggies are,
but the money goes

In the bottom not the top.

He might have been a patriot but,
what the hell's he got?

He doesn't know it but my money is in his bod,
So thanks Mr. Franklin for saving for my guitar,
I know I wouldn't have gone far without your bod,

Instrumental

He became a bank like the piggies are,
but the money goes

In the bottom not the top.

He might have been a patriot but,
what the hell's he got?

He doesn't know it but my money is in his bod,
So thanks Mr. Franklin for saving for my guitar,
I know I wouldn't have gone far without your bod,

And I know he would be very proud of me,
for spending money on the economy.

And you will just have to agree that

He spends money wise-a-ly on yeah!

Ending Instrumental
